“ We have certainly lost a participant in so,so, many great memories of my youth. Don always had such an infectious laugh that made every situation light. I once saw Don talk a jerk out of beating him with his smile. Amazing. I shared Don and Bills love for the water... Once Don and I were in the middle of lake Tyler when I found my self swimming against the current and with a shout to him,Don raced to me with a jacket and very likely saved my life. I am forever indebted. Prayers to Bill and Dee, Carol and Steve, and Dons family, et.al.

Much Love,

“ I am frozen by the deep despair I feel that my dear friend Don is now gone. Although I felt like kin, It is my wish that his immediate family find comfort as soon as they are able. With my greatest affection - Mike Archer 08/09/19
