“ My sincere condolences to the family. I feel like I know his family even though I only met Missy and Mark. He talked about you all the time and loved each of you dearly. Bud was one of a kind and had a saying that matched every occasion. I met Bud while teaching at John Tyler. We started hanging out in December and I miss him a lot. I can't believe he is gone but it is a journey we all must take and each of us alone. It's all part of the Master's plan, a step on the road to home.

“ One of if not the greatest man I've ever known. Everything I know how to do with my hands, fix, build, Southern Engineer things as he calls it I learned from him. He was a positive influence in so many lives and he took tremendous care of my mom. Bud is greatly loved and will be missed tremendously!

“ Bud once told me he was fishing in Canada, and it was freezing cold. The way to dispatch the fish was to hit it in the noggin with a small bat. Bud had his fish and was going to do the deed, reared back and smacked what was supposed to be the fish, but he missed and hit his own hand he said he looked at his hand and passed out as cold as the fish should have been. Bud was a good man and will be missed. Mark Edwards
