“ I am Brenda Jackson, her 2nd favorite niece :)
I remember summers at her and Uncle Jig's farm in Alvin. Crawdad fishing in the little stream on the property. Great, great memories. There was never a moment when I was around her that I didn't feel absolutely loved. I will miss her dearly.

“ I am Sherry Britton. I am Betty's favorite daughter in law!!! I would tell her this and she would laugh. I am married to Glenn her only son!!! When they lived in Fred outside of Silsbee we would visit them. Her and I would sit up and just talk when everyone else went to bed. Talk about anything and everything. I really liked the time we sat and just visited. I know I talked her ears off at times. But she never made me feel like I didn't matter or was a bother. She taught us how to play chicken foot dominoes and tried to teach us 42. She taught my girls about chickens, cows, flowers, gardening, the different birds, and so much more. (Don't ask them about the watermelons.) She would sit on the porch and watch her hummingbirds fight. Her favorite cows had names (April) She named her Dogwood trees in the backyard (Queenie). She would sit on the porch and watch for lighting bugs at night. We could all sit and watch the fire burning in the fireplace. Would mesmerize you. We learned how to bale hay and hunt squirrels. She had so many green beans one year she made them into pickles. **THOSE WERE THE BEST!!!** She made the best cornbread dressing. I have tried but came close only once over the years. (I think she left out something)!!! Glenn and I have been married for 41 years. So I have known her for a long time! I have seen her ride on back of a Harley with GW. I have seen her help bale hay, build their house in Fred, build their barns, milk the cow, quilt, plant the garden. She had done a lot over the years. She had enough laughs at me. When I was having Becky she was at hospital in the labor room. I told her the light above me was really bright. I told her it was a 1000 Watt bulb. I could see the numbers on it. She didn't say anything. Then I told her I didn't know they had light bulbs of 1000 watt in rooms. She laughed and said " That is a flood light". Yea I made a fool out of myself!! I hope she wasn't feeling sorry for the baby on the way!!! She loved her grandkids and great grandkids. Sitting here typing I am remembering so many things we did and went thru over the years. Think I will write down things for my own daughters and grandkids before I forget. Yes I like to talk and she knew this!! Please feel free to write a comment for us to read about her. I wanted to others to know how I thought of her so this is long!!! She

is reading this thinking "dang that woman won't stop"!!! Every humming bird, butterfly, mockingbird, and the squirrels in my yard will remind me of her. So feel free to let us know about your time with her. Short or long we would enjoy it. Funny , sad, odd we want to hear about it. She will be missed by this family.

Thank you, Sherry Britton (her favorite daughter in law)
