“ Blake, Mike, Matt and I started Dental School together in Houston in 1989. We shared a lab room for two years and had a great though stressful time together. The company was great and the courses were stressful. And still somehow we all made it through and went our own ways after graduation. I was very sorry to hear about his death, two weeks after it happened, so I had missed the funeral. Looking over the photos posted I realized that Blake had a full life and a loving family.

*It saddens me to know he is gone and I will miss him. My deepest sympathy goes out to his family.*
