“ My mother, Carol Anne Farmer Just as my brother said in the obituary was basically an angel on earth and is now back where she belongs among them in heaven. She always look forward to being with her savior and getting to be back with her infant and my baby brother that passed to Heaven The very day he was born and now that is exactly where she is! The last few years have taken many good times from my mother with this cruel and fatal form of dementia called Lewy Bodies in which there is no cure but she stayed positive even through her last two or three months, which were very physically and emotionally draining on her. The night before she passed, I was beside her bed, where she could barely speak, but the last word she said to me where I love you NC has always meant that and always showed it to not only her family, but to everyone around her ! She was always such a positive influence in my life and took care of me from the day. I was born until the day she died. Since the moment she passed I have grown a hole in my soul that could only be filled by her because there's no one else like her. She made such good friends at Brookdale Senior Living facility because of who she was. It didn't matter how ill she was if somebody needed something more than she did, they would have it she would sacrifice it. I love you, mama and I will miss you until the day. I see you again. Molly and Cassie miss you so much 🐶🐱

“ I loved precious Carol She called me "her much older friend" when our July birthdays rolled around. I'd say that less than a year was older but not "much" older.

Brett and Kay Lynn, you know first hand what an amazing, loving, compassionate, courageous, and beautiful woman your mother was. No doubt she was a great influence in your lives and in the lives of countless others. She was in mine. Love ot you, Helen (and Quinton)

I remember Carol from the Woodland Church of Christ in Bartlesville Ok. My wife Glenda and I were guest in her home. She was so hospitable. I will never forget her tender words toward me in my struggles when she gently sad to me, "I love you." Our heartfelt sympathy is extended to the family!
