“ Frankie Widner, was my friend, but she was a friend to so many. I'm so sorry we weren't able to spend more time visiting when I still lived in Tyler. But I do remember when we first met, and you were pregnant and I became pregnant shortly after that; and we spent so many mornings having coffee at my house and shared all our stories. And I was with you when you got your hearing aid and you could actually hear noise that I took for granted. And I was with you interpreting for your class at TJC, and later we were together when you interviewed for your job at TMFH. You worked hard and you were so proud to be working there. I remember all the fun camping trips many of us went on, and the deaf club meetings and parties. While I taught you about the hearing world, you taught me about the deaf world.. We don't know why this was your time to pass away. The one thing I do know, we all have lost a wonderful friend, Mom, wife, Grandmother, sister, aunt and you will be truly missed.

“ My dear Aunt Frankie,
We are all so saddened by your passing, but also rejoice in knowing that you are in heaven and have your angel wings. You have always been such an inspiration of what a woman can do/become, especially being a deaf woman. You never let that stop what you wanted to do or accomplish. We will always cherish your memory and sweet smile.

Love,

“ Frankie, I remembered When we were waiting at the bus station. She asked me to watch over Cindy. I say sure I will do.. I was glad that my mom talked with Frankie at the bus station. I was surprised my mom talked use her hands to sign language to her. She is not afraid to talked with Frankie.. Also asked me to come to her ASL classes at TJC. to meet me to her students. Also I have a lot of pictures of her was Halloween party and Deaf club. I really enjoyed to visited her home long time ago. My last moment was at Judy Barnes's funeral She was sitting next to me. She still said," I am funny".. I made her cheer up. She told me that she tired but she got some laugh from me that I was funny. I know her for 32 years. Wow! It time so fast for me. I will always remembers of her. Sure, I will miss her.

“ Frankie, you were the best ASL teacher. A great friend, encourager, photographer! There is many stories that can be shared here. I will keep it short. I recall one class session I had my teeth wired from having jaw surgery and when it came time to introduce each person in the class you were shocked that I had to use ASL although I still used ESL you noticed that I wasn't talking like I wanted to. And you told me that I can sign in ASL and not to worry about voice but, you used your voice lol that was a change that didn't happen often! There is one more story I will share here. Remember going to a T.K. Gorman football game? When you noticed I was there to after the game my mother was there with me and you remember working with her at TMFH years before. My next door neighbor Patrick Maloney was standing near me and my cousins and he was in awe of watching me use ASL and voicing everything me and you said he never knew I could sign until then! From that point on you had told me to never stop learning ASL!
So yes you were one of a few best ASL teachers I had!
RIP Frankie!

To your family, I will be praying for ya'll during this stressful time of grieving. Just remember that she is always in your hearts and she left a legacy to live on at TJC.

Thank y'all so much for the many years of teaching me and being great friends!
