“ *Denise and I will always remember Glenn's kindness and encouragement to us as young parents. Back then and throughout the years, despite multiple life crises with which Glenn was faced, he would always "light up" when he would see us, asking about our family and encouraging us in our walk. His unwavering love and care for Diane and all his family through the years served as an example for us both as spouses and parents. I feel blessed to have known Glenn and that my life was made better by him.*
