TB

Larry and I worked together at ETMCRHS-IT for over 15 years before he retired. He was one of the original first of 7-10 employees of our department, formally known as the Data Center Operations. He was a good man, honest, caring, and dedicated to his purpose in life daily. He would often encourage me to pursue my education in technology and keep learning to the fullest. As being one of the original IT employees, myself, since 1987 to present I have grown in many ways from what I learned from Larry during his tenure with our department. The way he carried himself and the many times he helped me with work-related issues was very relevant of who he was personally. My prayers are with his wife and his entire family. God is good and He never makes any mistakes. May Larry rest safely in His loving arms!
