“ I would like to offer my belated condolences to Peter's Family and Friends. He was a dynamic individual and a real tour de force in the steel industry . His legacy is millions of tons of construction steel being the core of our modern industrial and civic infrastructure. I was hired by Peter in 1973 at Sheerness Steel during my sandwich year and was priviledged to work with him benchmarking the mill output.

*the news of his passing is very sad*

*I worked for and with Peter at Chaparral from 1975 until his retirement. He was a unique individual, whose advice and guidance throughout those years helped me get to where I am today. My most sincere condolences go out to Elizabeth and the rest of Peter's family. He will be missed, but as long as you keep him near in your heart, he will always be with you.*
