“ I will never forget our phone calls in the morning while you was headed to work along with the ones when you was headed home. That's just a small memory within 37 years of having the Privilege having you as my big sister. You walk with Jesus now and although I know you are in a better place (living you're best life) but I can't help wish you was still here with us. I miss you more than you'd ever be able to comprehend. You made the world (my world) such a beautiful better place being in it. Please continue to watch over Me, Mom, Christy, Larry, Sandy and most importantly Jim. You will always be within my heart big sis and please help give me the strength to some how, some way come to terms with not only loosing my best friend... but my beautiful big sister. I love you.
