“ I'm gonna miss our conversation , we always laughed so much. 20 years is a long time to keep in touch.. I wished I had known the on the 17th when we spoke last was the last, 5 days later you would be in glory. We talked about taking that vacation and have just some relaxing down time and lots of laughs.. I probably will take that trip in honor of you but it won't be the same . I definitely would have told you again what a amazing funny friend you were and I loved you one more time. I hope you meet up with my son and I'll see you with in glory one day. We talked about our salvation and I'm so glad we did, now I have comfort in knowing you have a new health body no more pain .. praise Jesus for that..
Love you Stu, I will miss you deeply...

“ Godspeed, Stewart. May he greet you with the openness you showed everyone you met in your life. Funny, smart, sweetly clever and kind. I loved the short time I spent as your sister. You are so beloved, a special man.
